Housing Conservatorship Program

- DAAS is requesting two new positions to oversee cases referred through San Francisco's implementation of SB1045's Housing Conservatorship Program
- SB1045 creates a new type of conservatorship to help people who are unable to care for themselves due to a specific combination of serious mental illness and substance use disorder.
- The Office of the Public Conservator (PC) plans to create a specialized unit of deputy conservators to provide high intensity services to clients living in community settings.

Recommendations of the Assisted Living Workgroup

- Long Term Care Coordinating Council Assisted Living Workgroup release a report on the need for and availability of assisted living for low-income persons in San Francisco
- Recommended strategies for supporting availability of assisted living:
 - Sustain existing small businesses by supporting business acumen skills to empower and support the viability of small ALFs, and developing a workforce pipeline to provide trained caregiver staff with time-limited wage stipend .
 - Increase access to existing ALF beds by increasing the rate for City-funded subsidies to ensure the City is able to secure ALF placement for low-income individuals
 - Increase the number of City-funded subsidies to increase availability of affordable ALF placement for low-income individuals
 - Develop new models by piloting the co-location of enhanced services and affordable housing to develop alternate resources for people on the verge of needing assisted living but able to live in the community with more intensive and coordinated supportive services. Make space available for ALF operators at low cost to reduce a major operating expense and allow the City to more directly impact the resident population (e.g., support low-income ALFs).
 - Enhance the state Assisted Living Waiver program by increasing use of existing ALW slots by individuals and facilities and advocating for expansion of the program to increase the number of Assisted Living Waiver slots.
